**11. Labor and Material**

Architect/Engineer shall provide and pay for all labor, materials, equipment, tools, water, heat, utilities, transportation, and other facilities and services necessary for the proper execution and completion of all Contract work, all at no cost to City other than the compensation provided in this Contract.

However, in the event City reuses or modifies any materials furnished to City by Architect/Engineer, without Architect/Engineer's involvement or consent, then Architect/Engineer shall not be responsible for the materials.

**13. Termination for Convenience**

This Contract may be terminated by mutual consent of the parties upon written notice. In addition, City may terminate all or part of this Contract upon determining that termination is in the best interest of City by giving seven (7) days' prior written notice of intent to terminate, without waiving any claims or remedies it may have against Architect/Engineer. Upon termination under this paragraph, Architect/Engineer shall be entitled to payment in accordance with the terms of this Contract for Contract work completed and accepted before termination less previous amounts paid and any claim(s) City has against Architect/Engineer. Pursuant to this paragraph, Architect/Engineer shall submit an itemized invoice for all unreimbursed Contract work completed before termination and all Contract closeout costs actually incurred by Architect/Engineer. Architect/Engineer shall be paid the Contract price only for services performed in accordance with the manner of performance as set forth in this Contract.

**16. Remedies**

In the event of breach of this Contract the parties shall have the following remedies:

- 16.1 If terminated under paragraph 15 by City due to a breach by Architect/Engineer, City may complete the work either itself, by agreement with another contractor, or by a combination thereof. If the cost of completing the work exceeds the remaining unpaid balance of the total compensation provided under this Contract, then Architect/Engineer shall pay to City the amount of the reasonable excess.

- 16.2 In addition to the above remedies for a breach by Architect/Engineer, City also shall be entitled to any other equitable and legal remedies that are available.
- 16.3 If City breaches this Contract, Architect/Engineer's remedy shall be limited to termination of the Contract and receipt of Contract payments to which Architect/Engineer is entitled.
- 16.4 City shall not be liable for any indirect, incidental, consequential, or special damages under the Contract or any damages arising solely from terminating the Contract in accordance with its terms.
- 16.5 Upon receiving a notice of termination, and except as otherwise directed in writing by City, Architect/Engineer shall immediately cease all activities related to the services and work under this Contract. As directed by City, Architect/Engineer shall, upon termination, deliver to City all then existing work product that, if the Contract had been completed, would be required to be delivered to City.

During the term of this Contract, Architect/Engineer shall not discriminate against any employee or applicant for employment because of race, religion, color, sex, age, or national origin.

**18. Governing Law; Jurisdiction; Venue**

This Contract shall be governed by and construed in accordance with the laws of the State of Oregon without regard to principles of conflicts of law. Any claim, action, suit or proceeding (collectively "Claim") between City and Architect/Engineer that arises from or relates to this Contract which results in litigation shall be brought and conducted solely and exclusively within the Circuit Court of Tillamook County for the State of Oregon; provided, however, if a Claim must be brought in a federal forum, then it shall be brought and conducted solely and exclusively within the United States District Court for the District of Oregon. ARCHITECT/ENGINEER BY EXECUTION OF THIS CONTRACT, HEREBY CONSENTS TO THE IN PERSONAM JURISDICTION OF SAID COURTS. Nothing herein shall be construed as a waiver of City's protections under the Oregon Tort Claims Act.

**19. Compliance with Laws and Regulations**

Without limiting the generality of the foregoing, Architect/Engineer expressly agrees to comply with: (i) ORS 659.425; (ii) all regulations and administrative rules established pursuant to the foregoing laws; and (iii) City's performance under this Contract is conditioned upon Architect/Engineer's compliance with all applicable provisions of the Oregon Public Contracting Code, as more particularly set forth in Exhibit B and incorporated herein by this reference. **21. Drawings, Specifications and Other Documents**

Architect/Engineer hereby agrees that it will, in a manner consistent with its standard of care defined in above in Section 20, prepare all drawings, specifications, and other documents pursuant to this Contract so that they are complete and that any project, if constructed in accordance with the intent established by such drawings, specifications, and other documents, shall be structurally sound and a complete and properly functioning facility.

**22. Errors and Omissions**

Architect/Engineer shall be responsible for correcting any errors or omissions in the drawings, specifications, and/or other documents which deviate from the standard of care set forth in Section 21. Architect/Engineer shall correct at no additional cost to City any and all such errors and omissions in the drawings, specifications, and other documents prepared by Architect/Engineer or its subconsultants. Architect/Engineer further agrees to assist City in resolving problems relating to any project designs or specified materials.

**23. Contract Performance**

Architect/Engineer shall at all times carry on the services diligently, without delay and punctually fulfill all requirements herein. Architect/Engineer shall not be liable for delays that are beyond Architect/Engineer's control. Contract expiration shall not extinguish, prejudice, or limit either party's right to enforce this Contract with respect to any breach of Architect/Engineer's warranties or a default or defect in performance by Architect/Engineer that has not been cured. Architect/Engineer agrees that time is of the essence under this Contract.

**24. Access to Records**

For not less than three (3) years after the Contract expiration and for the purpose of making audit, examination, excerpts, and transcripts, City, and its duly authorized representatives shall have access to Architect/Engineer's books, documents, papers, and records that are pertinent to this Contract. If, for any reason, any part of this Contract, or any resulting construction contract(s) is involved in litigation, Architect/Engineer shall retain all pertinent records for not less than three years or until all litigation is resolved, whichever is longer. The warranties set forth in this section are in addition to, and not in lieu of, any other warranties provided.

**26. City Obligations**

- 26.1 City shall provide full information in a timely manner regarding requirements for and limitations on projects and work tasks. With regard to subcontractor liens, City shall furnish to Architect/Engineer, within fifteen (15) days after receipt of a written request, information necessary and relevant for Architect/Engineer to evaluate, give notice of, or enforce lien.
- 26.2 City shall establish and update, if necessary, overall project budgets, including Architecture/Engineering and construction costs.
- 26.3 City shall furnish the services of consultants, including geotechnical architects/engineers, when such services are requested by Architect/Engineer, reasonably required by the scope of a project, and agreed to by City.
- 26.4 City shall furnish all testing as required by law or the contract documents.
- 26.5 City shall furnish all legal accounting, auditing and insurance services as necessary for projects to meet the City's needs and interests, after Architect/Engineer has performed requisite project management and oversight duties.
- 26.6 City shall provide prompt written notice to Architect/Engineer if City becomes aware of any fault or defect in a project, including any errors, omissions or inconsistencies in Architect/Engineer's design or performance under the contract.
- 26.7 City shall pay Architect/Engineer in accordance with paragraph 3 and Exhibit D of this Contract, upon receipt of Architect/Engineer's submission of monthly invoices, and satisfactory progress and performance made in accordance with the scope of work. Payments shall reflect work completed, or progress made on a project to date, on a pro rata basis.
- 26.8 City shall report the total amount of all payments to Architect/Engineer, including any expenses, in accordance with federal Internal Revenue Service and State of Oregon Department of Revenue regulations.
- 26.9 City shall guarantee access to, and make all provisions for Architect/Engineer to enter upon public and private property necessary for performance of the Scope of Work over which City exercises control.
- 26.10 Extra work or work on contingency tasks is not permitted unless authorized by the City in writing. Failure of Architect/Engineer to secure written authorization for extra work shall constitute a waiver of all rights to an adjustment in the Agreement price or Agreement time.

**27. Arbitration**

All claims, disputes, and other matters in question between the City and Architect/Engineer arising out of, or relating to this Contract, including rescission, reformation, enforcement, or the breach thereof except for claims which may have been waived by the making or acceptance of final payment, may be decided by binding arbitration in City's sole discretion, in accordance with Uniform Oregon Arbitration Act ORS 36.600 et seq. and any additional rules mutually agreed to by both parties. If the parties cannot agree on rules within ten (10) days after the notice of demand, the presiding judge of the Tillamook County Circuit Court will establish rules to govern the arbitration. The City shall have the sole discretion as to whether or not dispute will be decided by arbitration rather than through the court process.

A claim by Architect/Engineer arising out of, or relating to this Contract must be made in writing and delivered to the City Manager not less than 30 days after the date of the occurrence giving rise to the claim. Failure to file a claim with the City Manager within 30 days of the date of the occurrence that gave rise to the claim shall constitute a waiver of the claim. A claim filed with the City Manager will be considered by the City Council at the next regularly scheduled meeting. At that meeting the City Council will render a written decision approving or denying the claim. If the claim is denied by the City Council, the Architect/Engineer may file a written request for arbitration with the City Manager. No demand for arbitration shall be effective until the City Council has rendered a written decision denying the underlying claim. No demand for arbitration shall be made later than thirty (30) days after the date on which the City Council has rendered a written decision on the underlying claim. The failure to demand arbitration within said 30 days shall result in the City Council's decision being binding upon the City and Architect/Engineer.

Notice of demand for arbitration shall be filed in writing with the other party to the agreement. The demand for arbitration shall be made within the 30-day period specified above. The City, if not the party demanding arbitration, has the option of allowing the matter to proceed with binding arbitration or by written notice within five (5) days after receipt of a demand for arbitration, to reject arbitration and require the Architect/Engineer to proceed through the courts for relief. If arbitration is allowed, the parties agree that the award rendered by the arbitrators will be final, judgment may be entered upon it in any court having jurisdiction thereof, and the award will not be subject to modifications or appeal except to the extent permitted by Oregon law.

**28. Attorney Fees**

If any suit, action or arbitration is brought either directly or indirectly to rescind, reform, interpret or enforce the terms of this Contract, the prevailing party shall recover and the losing party hereby agrees to pay reasonable attorney's fees incurred in such proceeding, in both the trial and appellate courts, as well as the applicable costs and disbursements. Further, if it becomes necessary for City to retain the services of an attorney to enforce any provision of this contract without initiating litigation, Architect/Engineer agrees to pay City's attorney's fees so incurred. Such costs and fees shall bear interest at the maximum legal rate from the date incurred until the date paid by the losing party.

**29. Successors and Assigns; Subcontractors and Assignments**

The provisions of this Contract shall be binding upon and shall inure to the benefit of the parties hereto, and their respective successors and assigns.

**30. Limitation of Liabilities**

Architect/Engineer shall not be liable for any consequential damages under this Contract.

**31. Foreign Contractor**

If Architect/Engineer is not domiciled in or registered to do business in the State of Oregon, Architect/Engineer shall promptly provide to the Oregon Department of Revenue and the Corporations Division of the Oregon Secretary of State all information required by those agencies relative to this Contract. Architect/Engineer shall demonstrate its legal capacity to perform the work under this Contract in the State of Oregon prior to entering into this Contract.

**32. Confidentiality**

Architect/Engineer shall maintain the confidentiality of any of City's information that has been marked as confidential, unless withholding such information would violate the law, create the risk of significant harm to the public, or prevent Architect/Engineer from establishing a claim or defense in an adjudicatory proceeding. Architect/Engineer shall require similar agreements from City's and/or Architect/Engineer's subconsultants to maintain the confidentiality of information of City.

**33. Force Majeure**

Architect/Engineer shall not be deemed in default hereof nor liable for damages arising from its failure to perform its duties or obligations hereunder if such is due to causes beyond its reasonable control, including, but not limited to, acts of God, acts of civil or military authorities, fires, floods, windstorms, earthquakes, strikes or other labor disturbances, civil commotion or war.

**34. Waivers**

No waiver by City of any provision of this Contract shall be deemed to be a waiver of any other provision hereof or of any subsequent breach by Architect/Engineer of the same or any other provision. City's consent to or approval of any act by Architect/Engineer requiring City's consent or approval shall not be deemed to render unnecessary the obtaining of City's consent to or approval of any subsequent act by Architect/Engineer, whether or not similar to the act so consented to or approved.

**35. Severability**

Any provision of this Contract which shall prove to be invalid, void or illegal shall in no way affect, impair or invalidate any other provision hereof, and such remaining provisions shall remain in full force and effect.

**36. Headings**

The captions contained in this Contract are for convenience only and shall not be considered in the construction or interpretation of any provision hereof.

**37. Integration and Modification**

This Contract, including the attached exhibits referenced in Section B, contains the entire agreement between the parties regarding the matters referenced herein and supersedes all prior written or oral discussions or agreements regarding the matters addressed by this Contract. Any modifications or amendments to this Contract will only be effective when made in writing and signed by authorized parties for each party to this Contract.

**38. Authority**

The representatives signing on behalf of the parties certify that they are duly authorized by the party for which they sign to enter into this Contract.

**39. Certificate of Compliance with Oregon Tax Laws**

By executing this Contract, Architect/Engineer certifies under penalty of perjury that Architect/Engineer is, to the best of Architect/Engineer's knowledge, not in violation of any Oregon tax laws described in ORS 305.385(6) and (7).
