

INTRODUCTION

Honorable Mayor Tim Hall, members of the Garibaldi City Council, Garibaldi Urban Renewal Agency (GURA) Board Members and the Garibaldi and GURA Budget Committees, please find your attached Fiscal Year (FY) 2021-2022 Budgets.

The budgets are for the fiscal year beginning July 1, 2021 and ending June 30, 2022. Staff will meet with the budget committees on June 28th, 2021, at 5:30 and 6:00 p.m., to review the proposed budgets.

The budget hearings will take place June 29, 2021, at 5:30 and 6:00 pm. You can submit questions before the meetings by email, phone or in person, although questions are welcome during the meetings as well.

BUDGET DOCUMENT PRESENTATION

This document contains four sections. Section 1, *The City of Garibaldi and Urban Renewal Budget Message*, discusses the city's performance in this and recent fiscal years, expectations for next year, and the city's financial position.

Section 2, *Agenda Notes and Meeting Process*, overviews the budget committee process steps, how to conduct the meeting, and the actions and motions for approving a budget.

Section 3, the *City and GURA Budgets* provide actual numbers from FY 18-19, FY 19-20, FY 20-21 and the forecasts for FY 21-22.

Section 4 provides the minutes from last year's budget committee meetings.

The city has eleven funds and the GURA has two. These budgets are presented in a line-item format; however, both budgets are adopted by category. This means that overspending a line item does not violate budget law. Please note the following:

- **This budget is balanced:** *Balanced* means that no fund expenditure exceeds its combined beginning cash balance and projected revenues. Revenues and expenditures are based on historical data, projected increases in the cost of goods and services, and demand for services or improvements.
- **We normally spend less than we budget:** This rule held true in FY 2020-2021, partly because the multiple funds that pay the city manager's salary used less than half of that line item. Line items that exceeded the budget were consistent across funds: for fuel, oil and insurance. If GURA or other new projects are assigned to the new city manager, staff will prepare a resolution or supplemental budget to support those.

- **We can't always afford what we want:** We don't budget significantly more than we need to operate from one year to the next. However, Capital Outlay expenditures are an exception to that rule: They are budgeted to provide flexible development or construction of a capital project. Projects often change or grow, as the project evolves through variable economics and policy.

Generally, we can meet the community's needs, either with existing resources and the financial carrying capacity of the city to assume new debt or other financial instruments.

- **Our budgets are adopted by category:** *Categories* within a fund are identified by total amounts summed in **bold** type. The budget committees approve the categories and council and the GURA board adopt them at the budget hearing. To comply with Oregon budget law, the amount spent in each category must equal, or be less than, the amount budgeted.
- **We adopt expenditures (appropriations), not revenues (resources):** Budgets contain both resources and appropriations. A proposed budget shows the sources of funds, in order to appropriate them for expenditures. Council and the GURA board adopt only the expenditures and consider whether the anticipated revenues can support them.
- **Resources may be restricted:** The third section of this document shows revenue sources broken out by lines. If less than 100% of a revenue source is spent in a year, the Governmental Accounting Standards Board (GASB) 54 standard states that ending fund balances should be broken into classifications that restrict resources. Each **Ending Fund Balances** is assigned one of five categories; **Non-spendable, Restricted, Committed, Assigned, and Unassigned/Unappropriated**, detailed at the bottom of each fund's budget. This shows which reserves are restricted.
- **Formatting identifies new items:** New line items in the budget represent new appropriations and are empty for past budget cycles. Those that have been removed will have shading "//////" for the current budget cycle, until they fall off after four years.

Each budget line is numbered, on the far left-hand side of the document. We will refer to line numbers during the meeting for navigation.

SECTION 1

THE CITY OF GARIBALDI AND GARIBALDI URBAN RENEWAL AGENCY (GURA) BUDGET MESSAGE

GURA BUDGET MESSAGE FOR FISCAL YEAR 21-22

Background: The City of Garibaldi formed the Garibaldi Urban Renewal Agency (GURA) in 2006. Though the GURA is a separate quasi-municipal corporation with its own budget and accounting system, it is a component of the city and shares its staff and resources. The GURA Budget Committee is made up of the ten members of the city's budget committee (council plus five freeholder positions) and up to nine members of the GURA's at-large budget committee (GURA members plus four freeholders).

To meet government auditing standards, the GURA is comprised of two funds: General and Debt Service.

1. The General Fund receives loans, grants and donations to fund capital improvement projects approved by the GURA board. Eligible projects are identified in the Garibaldi Urban Renewal Plan.
2. The Debt Service Fund receives taxes and services debt incurred by the GURA to complete projects. The GURA has an intergovernmental agreement (IGA) with the city to provide administrative services, which are shown as debt. The IGA is a contracted obligation and may be treated as debt, pursuant to ORS 457.

In 2008-09, GURA received a \$10,000 loan and \$7000 grant from the city's Transient Room Tax (TRT) Fund for gateway signs, a \$150,000 loan from Sterling Bank for improvements at 4th St. and Garibaldi Ave. and planning for downtown. GURA repaid the loan from the TRT Fund in FY 17-18, and the Sterling Bank loan in FY 13-14.

At the end of FY 10-11, GURA had received \$144,000 in state grants for improvements at the intersection of 4th Street and Hwy. 101. This second GURA project resulted in debt of just over \$72,000 -- part of the \$150,000 loan from Sterling Bank.

THIS YEAR'S BUDGET

This year's budget does not appropriate funding for GURA projects, as none is planned. That can be adjusted later either by resolution, or -- to appropriate 15% more than the fund total -- via supplemental budget. Now that we are fully staffed, the city's highway 101 project will likely take center stage.

GENERAL FUND

The GURA saw little activity in FY 2020-2021, with new projects on hold until a city manager was hired. The only revenue the GURA General Fund received was interest, at less than half of that anticipated by the budget. In FY 20-21, the GURA spent only a small amount on dues, licenses and subscriptions. The General Fund will start with a balance of approximately \$34,000.

Budgeted expenditures and transfers will again be minimal in FY 2021-2022, assuming no new GURA projects.

DEBT SERVICE FUND

This fund simply receives property taxes and pays off debt. Increasing assessed property values will increase tax receipts modestly, to approximately \$121,000.

Originally, the assessment was limited to properties within the urban renewal plan area. Now, every property within the city's limits is assessed a tax increment. This did not increase taxes on properties previously excluded from the assessment, but it could produce compression on the other taxing districts that receive their share of the assessment on any property within city limits.

SUMMARY

At current assessed values, the GURA can anticipate approximately \$880,000 in tax increment diversion until it sunsets, in FY 27-28. This presumes a 3% growth in receipts each year, typical of increases in annual tax assessment throughout Oregon. Of course, if we experience more development within the district, this percentage could increase.

CITY OF GARIBALDI BUDGET MESSAGE FOR FISCAL YEAR 21-22

FISCAL YEAR 20-21 PERFORMANCE & CURRENT ISSUES

As of early June 2021, most expenditures and estimated revenues are within projections. However, public works expenditures will increase to meet ongoing deferred maintenance. Also, in the General and Transient Room Tax Funds, personnel services and interfund transfers increased last year. The most significant operational changes were staff changes: The city has lost its full-time systems operator and added three Utility Workers II. Furthermore, the city operated without a city manager from October 2020 until June 2021.

While overall spending resembles a normal operating year, all Utility Workers II appropriate some of their compensation from the General Fund, whereas the system operator did not. To accommodate this expenditure, we reassigned duties from the utility operating funds between the three employees.

Administrative Department: Administrative staff decreased in October of 2020, when the city manager resigned. Every fund that contributes to that salary saved around 44 percent last year. The Water, General, Street, Wastewater and TRT funds will all now resume funding the city manager's salary, which is slightly less than budgeted for FY 2020-2021.

Because city hall is now fully staffed, Utility Billing Clerk Sue Buchholz will return to her previous workload of 60 percent, reducing her salary modestly.

Fire Department: In FY 2020-2021, Fire & Rescue expenses came in under budget, except for equipment repair, insurance, fuel, printing, advertising and notice. However, they requested raises and larger expenditures for FY 2021-2022. An intergovernmental agreement to provide

training to the City of Bay City Fire Department will bring in almost \$22,000 in new revenue. Furthermore, Ordinance 332 implements cost-recovery fees.

Planning Department: The city continued sustained land use activity during the last fiscal year, generating revenues slightly above anticipated receipts for the year. Planning expenditures for staff structure came in under budget, especially because much of the appropriation for a city manager was not used.

Police Department: The city has remained well within its anticipated expenditures for the current year. The only expenditures exceeding the budget were for fuel, oil and insurance, a trend across city departments.

Public Works: Public works increased its personnel services, particularly in the Street Fund, due to three new Utility Workers II. The previous systems operator was paid only out of water and wastewater funds. The street fund expenses came in under budget, except for the same high fuel and oil costs affecting other departments. This year, we again eliminated the transfer from the TRT fund, to help rebuild its cash on hand. However, like other departments, it saved half of the amount budgeted for a city manager.

Both the Water and Wastewater funds are operating within in healthy margins, but a greater cost will affect Wastewater, due to public works salaries. Both are holding comfortable contingencies, but have budgeted less materials and services to offset increased compensation and continued capital outlay for our aging wastewater plant. The city must revise utility rate structures to continue services at current levels: Rates have remained constant for over a decade.

Tourism and event promotion were reduced last year, since the Garibaldi Days event was cancelled, due to COVID-19 pandemic precautions. Therefore, the Transient Room Tax Fund no longer provides large transfers for streets and public safety equipment reserves. However, despite the cancellation, TRT revenues exceeded our slightly-reduced projections. We expect revenues to continue increasing in FY 2021-2022, due to the return of Garibaldi Days.

Thanks to the budget committees, council, and the GURA Board for their continued involvement. We look forward to seeing you at the meetings.

Respectfully,

Juliet Hyams

City Manager/Budget Officer
